THE COTTON MARKET

ANOTHER BREAK IN

YEW LEVELS ARE REACHED

Prices of All Contracts at Lowest Point of Downward Movement.

The cotton market resumed its downpard course yesterday and at the end of the session prices were at the lowest point of the decline. Holders, both of old and new crop deliveries, liquidated on the predictions of further showers in the Western belt and private reports of rains n scattered sections of Texas. The selling was quite heavy throughout the sesion, and toward the close stop loss orders were reached which helped along the deeline. July and August deliveries went selew Friday's low prices, the former dedining to 11.71 and the latter to 11.50.

At the opening prices were about points lower, but for a short while after the start the market held steady on the absence of selling pressure. Many of the weather reports from Texas and Okla-homa were conflicting, and traders hesiboma were connicting, and traders nesttated to base further commitments upon
them. The weather map, however, showed
a moderate precipitation at many points
in both belts. Selling of new crop deityeries by Wall Street houses started
the decline, which carried January to
12:65, October to 12:18 and December to 12.12. August rallied 7 points from the price, but otherwise the market closed

Liverpool was an unimportant factor in local market, doing very little either, New Orleans sent moderate buy ng orders, and spinners' agents were again

ing the new crops. he cotton market's feature during the past week was the slump in the old crop deliveries, which followed heavy selling by deliveries, which followed heavy selling by tired longs. The weakness in July and august soon communicated itself to the later deliveries and throughout the period prices followed a downward course. More favorable weather developments in Texas and other parts of the Western belt also mere an important factor in the decline, as many traders felt that the dry weather and high temperatures that recently prevailed in Texas and Oklahoma was the market's chief sustaining influence. In the Eastern belt conditions are generally excessible and it is needleted that there Tavorable, and it is predicted that there will be an early movement of cotton.

Spot cotton was quiet and easier; middling uplands 11.95, middling gulf 12.20.

THE GRAIN MARKETS.

Wheat Prices Move Within a Narrow Range.

Wheat prices exhibited but little change y-sterday, moving within a narrow range throughout the session. Prices at the start were lower, following weaker cables. Offerings, however, were light and on a fair volume of buying orders prices hardened and at the close the market was ½ to %c. higher than at the previous closing. The principal support came from shorts, but there was a fair export demand.

Corn opened steady and the market held throughout above the previous closing. There was an advance of from 1% to 1% c., on reports of drought damto 1% c., on reports of drought damage in Kansas and indications of continued hot weather. At the close the market was 1% to 1% c. higher than on the day before

Oats opened steady and gained from & to 1c. on reports that the crop had been burned out in Missouri and southern fillinois. At the close prices were ½ to ½c. higher than at the preceding close. Wheat prices held steady during the greater part of the past week. The volume of sales was small. A feature of the market was the heavy export demand in the middle of the week, which tended to harden quotations. Prices scored an advance of ½c. on Monday through fear of damage by black rust. There was also a heavy export demand. The export movement of Tuesday totalled \$80,000

ratining over 1c. on drought damage reports and leading the other grains. There
was a reaction on Tuesday when favorable crop news was received. Further
weakness developed on Wednesday on the
expectation of favorable showers in the

DAIRY PRODUCTS MARKET.

BUTTER—Receipts for last week were 13,562 packages, compared with 68,969 the Wolverine Lale Royale year. This shows a gain of 16,699 packages over a year ago and about 5,999 over the week before. Large receipts of butter have Mohawk Wolverine Lale Royale. Tamarack Allouez Superior Wass Con. year. This shows a gain of 16,000 packages over a vear ago and about 5,000 over the week before. Large receipts of butter have caused the weak feeling which has prevailed for the last few days and it portends a lower price next week. During the hot months butter aiways runs poor, but this year it seems to be poorer than usual. It is impossible to get a sufficient quantity of high grade butter to meet all the demands, and some of the buyers are taking stock that is not entirely satisfactory. Another reason for a lack of sufficient tine butter to offer is that the receivers believe they can make more money by storing than seiling at present prices, which shows every receiver a loss because of contracts made earlier in the season. As yesterday was a half holiday trade was slow. No meeting of the Mercantile Exchange and prices remain unchanged. Quotations are: Creamery, evra, 234, 27c; firsts, 254,25;c; seconds, 21,25; 27c; firsts, 254,25;c; seconds, 21,25; 27c; firsts, 234,6;c; seconds, 21,25; 27c; firsts, 2

market was 1½ to 1½c. higher than on the day before.

Oats opened steady and gained from & to 1c. on reports that the crop had been burned out in Missouri and southern Illinois. At the close prices were ½ to %c. higher than at the preceding close.

Wheat prices held steady during the greater part of the past week. The volume of sales was small. A feature of the market was the heavy export demand in the middle of the week, which tended to harden quotations. Prices scored an advance of ½c. on Monday through fear of damage by black rust. There was also a heavy export demand. The export movement of Tuesday totalled 580,000 hushels.

On denial of crop damage the market held dull but steady. Offerings were light on Wednesday and prices moved within a narrow range. On Thursday prices were practically unchanged and dealings were limited.

Prices reacted sharply on Friday following crop news which was regarded as bullish, and the market weakened were ic. from the previous close.

Corn was strong at the first of the week, gaining over 1c. on drought damage regardes.

Disconding the color of the provious close.

miners in the Lake Superior region did Paulo was favorable. much for the copper market last week, as producers were able to dispose of further important tonnages on an advancing price scale. At the close the market with producers was 15 to 1514 cents a pound, October.... producers was 15 to 151/2 cents a pound, with some of the largest sellers out of the

market temporarily.

It became necessary for the Calumet and Hecla sales department, which handles considerably more than 100,000,000 pounds of lake copper annually, to withdraw because the company's own properties and those of controlled companies were closed down when the local branch of the

a result they have seen the price recover about a cent a pound from recent low levels with Europeans as usual getting the cream. There has been considerable inquiry from home users of the metal, but this has not yet developed into actual business proportionate with the enormous volume taken by manufacturers across the Atlantic. the Atlantic

France and Germany have been the chief buyers of copper during the week, although England has also been rather active in the market. But for the diffi-

sheet copper industry has fallen quite flat according to persons directly interested in it. This has been attributed largely to smaller building opera-At the moment the Lake Superior miners' strike, which has closed down all the copper properties in Michigan, promises to be a long drawn out affair. This district produces about 18,000,000 pounds monthly. The smelter men were not interested in demands made upon mine owners, but as the amount of mineral available for smelting was small, the available for smelting was small, the shutdown of these plants was the natural sequence. Last year there was produced at the lake about 15 per cent. of the country's entire output, or 220,000,000 pounds. The current proportion has been less, however, as against a national increase in production, the lake district contribution has been falling off. Of late these properties have been producting at the rate of 197,000,000 pounds per annum. The principal falling off has been at the Calumet and Hecla property. Last year's output and the current year's rate at the lake follows (peunds):

Company Calumet & Hecla Copper Range..... Ahmees Mohawk Wolveri 5.525,000 7,500,000 3,921,000 2,500,000 2,045,000 1,000,000 1,742,000 2,200,000

to pleage these bonds to secure an issue of two year 6 per cent. notes which may be issued up to 75 per cent. of the amount of bonds deposited. The money received from marketing these notes will be used for improvements in connection with the com-pany's new hydro-electric plant.

MISCELLANEOUS MARKETS.

Coffee Prices Were Steady Through

out the Week. Coffee was quiet in yesterday's trading but the spot situation was firm. There was an advance of three to seven points. The firmness was attributed to the better tone of the foreign markets. There were evening up transactions over the week end and the market was a narrow affair. The

closing was steady.

Coffee prices have been steady practically all week, reflecting the improved sentiment abroad. It is also realised that consumers stocks are low and the existing short interest is said to be large, par-ticularly in September and in December

change. The clover straightens its bowed back; fenne too stands up stiff and straight if colder weather is looming on the horizon The wood sorrel lifts its leaves before a storm, while those of the narcissus close up. The lettuce again opens its leaves before rain. So many and so varied are Nature's signs.

ROSE TRADE HURT BY WAR.

Supply From Bulgaria Compare tively Small This Year.

WASHINGTON, July 26 .- "The war in the Balkans is likely to have a more intimate effect upon the women of America and Europe than one would believe at this grower of Boskoop, Holland, at the Raleigh "Women must use perfumes and extracts from flowers for the toilet and not a few men

sometimes make use of toilet waters.
"Bulgaria has been for a number o years the chief producer of roses for com mercial purposes. Trade roses have been grown in the acres about Kasanalik, Bul garia, and Grasse, France, for a great man y years, and while these two places have been among the chief sources of sup-ply there are many small villages in Holland which are the centres of vast districts devoted almost exclusively to the raising of roses and other flowers for commercial

With the long continued war in the Balkans and Bulgaria faring perhaps worse than all the other States of that region, the great rose industry of Kasanalik must necessarily suffer. The output of roses from Bulgaria this year probably will be so small that attar of roses and other per-fumes will be exceedingly scarce and the price of course must soar.
"Boskoop, in Holland, is known as the

land doubtless will be used to make up the deficiency from Bulgaria, but it will not be enough.

"The whole area of Beskoop is about 2,000 acres and there are about 350 proprietors, so that the average holding of each proprietor is six acres. The production of roses, however, is so great as to give every the world knows of the fame of Haarlem, the nursery of the tulip and hyacinth. What my lady may lose from the war in Bulgaria possibly will be supplied by Holland, but there is small chance that the manufacturers of essences and perfumes can get enough roses this year to meet the demand for extracts.

And a pressite mond (Staten Island), New York City. The reservoir will be about 2,000 feet long and 1,200 feet wide, formed by earth embankments to close depressions, and there will be four earth dikes, one of which will be lined with cancrete. The tunnel will be about 1,300 feet long, 10 feet ling, and 5 feet wide and will contain two horseshoe shape conduits. Atthe above place and time the bids will be publicly opened and read. Pamphlets of containing information for Bidders, and pamphlets of containing the sum of the dollars (\$100 for each pamphlet. For further particulars see Information for Bidders. CHARLES STRAUSS.
